

THE CONDON GLOBE.

FRIDAY, MAY 6, 1892.

NOTICE.

The yearly subscription to the GLOBE is \$1.00, payable in advance. No deviation from this rule. The paper will be stopped at the end of the time for which it is paid unless further ordered and paid for. A blue pencil mark around this notice indicates that your subscription has expired, and if you wish the paper continued you should remit the amount as soon as possible.

GLOBOSITIES.

See the new saw mill ad on first page of Cantwell Bros. of Lost Valley.

Howard Propert is helping in the sheriff's office a couple of days this week.

P. E. McQuinn and A. C. Herndon of Butte Creek were in town Thursday.

Mrs. W. A. Goodwin visited relatives and friends on Rock creek during the last week.

The GLOBE has several thousand blanks—mortgage and warranty deeds, chattel mortgage, etc., for sale cheap.

The ball Monday night was a grand success in every way. Over 60 numbers were sold, and all had a gay time.

She—With what were you particularly struck when you first went on the stage? He—Four eggs and a cabbage.—Life.

Dr. Keeley was once a tramp painter. The majority of his patients have done something in the "red paint" way also.

Banker Jos. A. Thomas and Stanley Coffin of Arlington each made a flying business trip to Gilliam's capital the first of the week.

A school teacher in Washington county is named Miss Hell. Occasionally she makes it pretty warm for the wicked little boys and girls.

A Boston paper prints an essay entitled, "What Shall We Eat for Dinner?" That question has bothered millions of poor devils for ages.

Remember that Matney postoffice is now defunct, and that all mail heretofore addressed to that office must hereafter be sent to Condon.

The supreme court has

After a more careful investigation, Charley Burton has discovered that the little "boy" whom we mentioned in last issue as coming to their house recently, is a girl, and requests us to make this correction, which we cheerfully do.

H. N. Frazer arrived home Sunday from Arlington with his wife and little boy, who had been visiting their relatives at Pendleton. They will occupy the small Maddock building on upper Main street a short time until Mr. Frazer builds a dwelling.

W. R. Wakefield, a gentleman of considerable means, arrived here this week direct from England, and expects to locate somewhere in this section and engage in the stock raising business on a large scale. He formerly lived in Kansas, a neighbor to W. S. Myers, whom he is visiting now.

Miss Beeson, an accomplished young lady of Vancouver, is visiting at the pleasant home of her friends, Mr. and Mrs. Chas. B. Sears, near Mayville. Charley's uncle, H. A. Sears, a prominent business man of Seattle, is also visiting at the same place. They were all over to the ball Monday night.

H. L. Stewart, representing Canning, Wallace & Co., manufacturing pharmacists of Portland, was in Condon last week. Mr. Stewart made arrangements with our local druggist, L. W. Darling, to carry their excellent remedies, and their ad will appear on the first page of this religious paper next week.

Charley Perrin of Pine creek has concluded to learn the harnessmaking business, and with that determination in view, he has secured a position with E. E. Smith at Condon. Charley is an industrious, steady young man, and will learn very fast. He says he has "wrestled" broncos and cows long enough.

Tuesday morning just as the rig was driven up to the hotel to convey Miss Annie Schott and T. G. Johnson to Rock creek, the team began frisking and backing, and forgot to quit in time to prevent the buggy from looking as though it had been run through a threshing machine. Luckily no one was on the buggy.

ne the county which we will week. When we es that Condon is illiam county, some nes were inclined to The figures speak for of pupils at Condon, in and Fossil, each 108. tioned for Condon district, Arlington and Fossil, each ant per capita, \$1.25, besides district. Total apporportion the county, \$3.685.

is no greater evidence of pro-man to see business houses being ed in order to meet the require- ments of increasing business. With one or two exceptions, every business house in Condon has been enlarged during the past year, which is a healthy sign that the trade and business of the town is increasing right along. Besides this, nearly a score of new business houses have been built, and a like number are under contemplation for this summer. Halstead, Rinehart & Co. had another addition built onto the rear end of their store this week.

Wm. Hughes of Heppner, the democratic nominee for member of the State Board of Equalization for the 7th judicial district, visited his many friends in this section this week. Mr. Hughes formerly was largely interested in the sheep business in this section, and is well and favorably known throughout the county. He is one of the most intelligent and honorable men in the country, and is thoroughly competent to discharge the duties of the important office to which he should be elected the 6th of next month. Greater importance is attached to this position than the average voter thinks, and by electing Mr. Hughes to the office, the people of the 7th district will make no mistake. All of us know how important it is to have taxes more equalized, and he is just the man to represent us in that direction.

A word in time saves nine. There is going to be trouble and delay in the Australian voting. Every worker at the polls ought to have copies of the tickets and the names numbered so that when a man, who don't know better, is going to vote, he can use the copy as a memorandum and make his mark opposite the number according to copy—otherwise there will be many a ticket lost for marking the wrong name.

One of the live metropolitan papers gives its version of the country editor as follows: "There is no member of civilization who sweats and serves more for his pittance than the country editor. There is no individual in the rural town who performs more unpaid labor for his community and for mankind. It is supposed to be the duty of a country paper to boom the town, the county, the state and the interests of every public man, as a matter of course, and nearly all rural editors perform the work faithfully, unceasingly and for the most part without remuneration or even thanks."

A private letter this week from Billy Colwell of Portland, concludes by saying that he and his wife are well and doing well, which their many friends in this section are very glad to learn. Billy does not come right out and say frankly that he is dissatisfied down there, but he quietly admits that a person to thoroughly appreciate our fine and healthful climate ought to leave it in search of better. It would be a vain search, he thinks. He also says that a person can make more money in this section with small capital than at any place he knows of in United States. And he is right. Mr. Colwell says he will visit Gilliam the latter part of this month.

County court is in session this week with Judge Mariner and Commissioners Woodland and Edwards in attendance. This will probably be Mr. Woodland's last work as commissioner, as the next session will be held in July, when a new man will take his place. Mr. Woodland has filled this important office for six years, and it certainly is a source of much satisfaction to him to know that by his efficient administration he has won the entire respect and confidence of the people of Gilliam county. He has filled the office with credit to the people and himself. All the members of the county court deserve much credit for the careful and economical manner in which they have managed the county's business. The "resolutions" recently published in the other two county papers, condemning the court for "extravagance and assuming to legislate for the county without lawful authority," etc., came from very bad grace, the motive being too transparent to merit any credence whatever. It was not the "unanimous" sentiment of the convention, as stated by the papers in question, and the GLOBE (the people's reliable paper) would have corrected the error sooner, had its origin not been so insignificant as to not deserve notice.

Crown Rock Reports.

The festive sheepshearer is beginning to loom up in this section like the justly celebrated bed-bug.

Harrison Huntley, one of our most progressive citizens, has a mare 21 years old, that has had her 17th colt already. Who can beat this?

The meadows along Pine creek present a magnificent appearance just now, the luxuriant alfalfa already being knee-high—or "limb-high," whichever suits the dear reader's modesty best.

J. E. Fitzgerald has been engaged the last week hauling lumber for the new dwellings of Wm. Lyle and himself, to be built on their homesteads on Lone Pine. The example of these young men might be followed with profit by others.

Our school, under the very efficient management of Miss Lola Whitcomb, is progressing nicely, and all the pupils are advancing rapidly on the road to knowledge. This little lady seems to have a natural tact for knowing how to teach the young idea how to shoot.

The weather over this way lately has been considerably mixed—warm one hour and cold as "bleezes" the next. Our farmers are a little behind with their work on account of spending all their time "jerking" their coats off and putting them on again to suit the very changeable weather.

The writer recently travelled over a very large portion of this section of country, and is pleased to note the decided and wonderful improvement of the country, in every way, during the last few years. On every side is evidence of thrift and advancement, beautiful and comfortable homes, peace and plenty—where but a few years ago seemed apparently barren and unfit for the residence of human beings. Truly this is a wonderful and glorious country, compared with the effete and blizzard-ridden country east of the Rockies. There is yet plenty of room for thousands more such happy homes here. Come to Gilliam, the paradise of America; settle down, commit matrimony, subscribe for the GLOBE, and you will always be happy and prosperous. T. D.

Notice To Teachers.

Notice is hereby given that, for the purpose of making an examination of all persons who may offer themselves as candidates for teachers of the schools of this county, both for county certificates and state diplomas, the county school superintendent thereof will hold a public examination at Condon, commencing on Wednesday, May 11, 1892, at 1 o'clock p. m. Dated at Fossil this 26th day of April, 1892. L. PARKER, County School Supt.

The Dalles Dots.

(Held over from last week.)

The Alumni of the Wasco Independent Academy will give a public entertainment June 15th, which promises to be "an gay event."

Miss Lulu Welch transferred her smiling countenance from our midst last week and joined the army of school ma'ams of Crook county.

Mr. Floyd's new residence being completed, a large number of their friends gave them a pleasant surprise Friday evening. Dancing was the main feature.

The Dalles enjoys the proud distinction of having three of the best and ablest newspapers in the United States for the size of the town—2000 inhabitants.

Our public school will close the 19th of May. A splendid and appropriate program is being prepared, a pleasing feature being a "Fan Drill" by about forty children.

Business here at present is a little dull, but next month when wool-hauling from the interior begins, the city will again assume its usual activity, for which it is so widely known.

The Good Templars gave a "shadow" social here a few nights ago. A curtain was hung, on which appeared the shadow of the ladies. The homeliest sold at about 10c, and the prettiest as high as \$2.50.

Our delightful little city is being rebuilt rapidly since the great fire of last summer. Many very beautiful dwelling houses are going up all over the city. Mr. Dietzel's, on the hill, one of the finest in the city, having just been completed.

America, the grandest and noblest country under the sun, was discovered 400 years ago. With this great historical event in view, The Dalles schools will celebrate it in appropriate style. It wouldn't be a bad idea for every town and city in America to follow their example.

Five Mile seems to be the principal pleasure resort for our young people who go out there to capture "speckled beauties." Of course they never catch any fish, but it's an excellent place to fish, even if the boys can't catch anything but "dears." Among the large number of young people who went fishing Saturday were: Misses Fulton, J. and B. Floyd, Alice and Maggie Keys, Riddle, Cheese; and Messrs. Fulton, Shown, McArthur, Floyd, Pruett, Cooper and Jackson. C. M. T. C.

Arlington Antagonists.

Born, May 2, 1892, to the wife of S. G. Hawson, a son. Syd! Syd!! The gay and festive sucker, of the finny tribe, "takes the dough" just now.

Mrs. A. C. Hawson has returned from her visit to Mrs. A. Smythe, of Klickitat. Shearing is in full swing, and wool teams are beginning to give Main St. a more ornamented appearance.

Bishop Morris and Rev. Potwine of Pendleton passed through Tuesday, which is the origin of this good item.

Jno. A. Brown, like the editor of the "Arizona Kicker," will run a hotel and butcher shop in addition to his paper, having taken charge of the "Vendome" this week. No doubt his next addition will be a feather factory.

A young man adorned with bracelets passed through town the other day, accompanied by a deputy sheriff from Marysville, Cal., where he was wanted on a charge of shooting a brakeman on the S. P. Ry. He was arrested at Heppner.

Hon. A. S. Bennett, democratic nominee for supreme judge, came up from The Dalles Monday on business. Mr. Bennett is one of the ablest and most brilliant attorneys on the Pacific coast. He is so much stronger than his party in this state, that his election in June to this honorable position will be something similar to the vote Gov. Penoyer received two years ago.

We don't hear much said about county politics. Probably they are "lying" low until about June 6th, at which critical time they will get in their work. "Let the best men win and the devil take the hindmost." It is a safe bet that about 3/4 the candidates will hear something "drap" about election time. Poor devils! they can't all be elected; and 1/2 of them will learn that the people do not think so much of them as the candidates do of themselves. Most of the people in this end of the county do not know who the candidates are, on account of the tickets not being published in the county papers, as usual. S. C.

Germany Gems.

The school meeting Saturday resulted in a tie as to whether Henry Heidman continue as school director or not.

McWillis Bros. have begun their contract of "building" holes and setting posts around a section of land belonging to Gilman, French & Co.

The grip has nabbed about everybody on this very productive phlat. We believe this celebrated complaint has not pushed itself into popular favor in this section to any very marked degree. It is safe to say that a good big kettle of boiled kront would meet with a warmer welcome by our people.

We had three inches of snow out here Saturday morning, which state of weather doesn't swallow well with our average cabbage inhabitant. However, at the thinking of these gems of thought, we believe they have decided to put up with whatever kind of weather comes, which good judgment is commendable. F. E. R. Y.
